CERTIFICATES

- **MERN:** Zoople Technologies, Kochi | 2024
- **Python:** Intern at Gateway Software Solution,
- **Asp.Net:** Syscosoft Kadavanthra | 05/2017 - 11/2017

EXPERIENCE

MERN-Stack Developer Intern | Zoople Technologies, Kochi | 2024-present

- Full-stack development with MongoDB, Express.js, React.js, and Node.js.
- Building RESTful APIs and server-side logic.
- Database design and CRUD operations with MongoDB.
- Authentication and authorization using JWT.

Software Developer | Telecomatics Technologies | 11/2022 – 11/2023

- Contributed to the development of the 'Iceberg' web application using **Angular**, **.NET**, and **NgZorro** framework.
- Contributed to the development of the 'WimTrack' Desktop application using **WinForms**, **Sql server**
- Collaborated across the full software development lifecycle, from conceptualization to deployment, working closely with cross-functional teams.
- Optimized the existing codebase and integrated new features to enhance performance and user satisfaction.

PROJECTS

Personal Portfolio Website

- **Description:** Designed and developed a personal portfolio website using **React** and pure **CSS** to showcase skills, projects, and achievements.
- **Technologies used:** React.js
- **Hosting:** Deployed on GitHub Pages for seamless accessibility.

goVagamon – Tourism Booking Platform

- **Tech Stack:** MERN Stack (MongoDB, Express.js, React, Node.js), Material-UI, JWT Authentication
- **Description:** Developed a full-stack **e-commerce web application** for tourism in Vagamon, Kerala. The platform connects **local resorts, homestays, and tenthouses** with travelers, enabling easy online booking.
- **Hosting:** Deployed backend in **Render.com** and frontend in **Netlify**
